Product numbers	ISIN: DE000A3G3ZL3
PRIIP Manufacturer	ETC Issuance GmbH (“Issuer”) (https://etc-group.com) The issuer forms part of the ETC Group.
Phone number	+49 69 8088 3728
Competent authority of the manufacturer of the product	The Federal Financial Supervisory Authority (BaFin) Germany is responsible for supervising the Issuer in relation to this Key Information Document.
Key information document created:	28/03/2023, 16:30
Key information document last updated:	29/05/2023, 16:30 (version 38)

You are about to purchase a product that is not simple and may be difficult to understand.

What type of product is this?

Type

DA20 are bearer bonds under German law that are secured by a basket of cryptocurrencies (“Basket”) deposited in a depository for safekeeping, the composition of which is based on the respective current components of the MSCI Global Digital Assets Select Top 20 Capped Index (“Index”).

Term

The product does not have a fixed term, subject to exercise by the investor or termination by the Issuer.

Objectives

Investors who wish to invest in the Index as specified in the “Underlying” field in the table below as part of their investment strategy can purchase this product, the value of which is based on the Basket, the composition of which is based on the respective current components of the Index, on the secondary market or from an “Authorised Participant”. The product is purchased through the secondary market in fiat currency. Payment of the product purchased through an Authorised Participant may be made either in the cryptocurrencies comprising the Basket, in another cryptocurrency or in such fiat currency as the respective Authorised Participant accepts.

Units of cryptocurrencies comprising the Basket received by the Issuer as consideration from the sale of the product to Authorised Participants are transferred to a designated security account as collateral. This means that for each unit of the product in circulation, a predefined amount of cryptocurrencies comprising the Basket is available to hedge the product (each a “Single Cryptocurrency Entitlement” and in sum the “Cryptocurrency Entitlement”). After the Issue Date, the Cryptocurrency Entitlement decreases continuously in value by 1.49% annually, calculated on a daily basis from the Single Cryptocurrency Entitlement of each unit of the product over the entire holding period of the product. This means that the Cryptocurrency Entitlement per share decreases by approximately 0.00408219% every day (= 1/365 of 1.49%). Cryptocurrencies held to back DA20 are held institutionally by Komainu (Jersey) Limited, a private limited company incorporated under the laws of Jersey and regulated by the Jersey Financial Services Commission (the “Depository”). The Issuer has appointed APEX Corporate Trustees (UK) Limited (the “Collateral Trustee”) as a collateral trustee to hold the collateral rights for the cryptocurrencies deposited with the Depository on behalf of all current and future DA20 holders.

Termination by the Investor: An investor may sell the product anytime on the stock exchange. Alternatively, the product can be terminated in whole or in part, with the Issuer or an Authorised Participant (Certain terms and conditions apply) at any time. Upon exercise of the Cryptocurrency Put Option, repayment generally takes place by delivery of the cryptocurrencies comprising the Basket at the relevant time (“Cryptocurrency Settlement”). The investor’s claim to repayment corresponds to the Cryptocurrency Entitlement on the repayment date less repayment fees. An Authorised Participant or the Issuer transfers this claim to the Digital Wallets specified by the investor on the repayment date. Alternatively, investors may request repayment in Euro (“EUR”). The investor will then receive an amount of money in EUR equal to the amount obtained in a divestment procedure for the collateral cryptocurrencies (“EUR Settlement”).

Mandatory Redemption by the Issuer: The product terms and conditions also state that, if certain events occur, the Issuer may repay the product prematurely via Cryptocurrency Settlement or, if an investor decides to do so or if it fails to perform the cooperative acts required for the Cryptocurrency Settlement, via EUR Settlement. These events are explained in more detail in the product terms and conditions. It is likely that any return the investor receives in the event of such early repayment will be different from the scenarios described above and may be considerably less than the amount that the investor invested upon purchase. Total loss is also possible. Furthermore, investors run the risk that termination will be requested at a time that is unfavourable to them and that they will only be able to reinvest the terminated amount on worse conditions.

Underlying	MSCI Global Digital Assets Select Top 20 Capped Index (GB00BMVQFP07)	Product currency	Euro
Issue Date	28.03.2023	Trading Day	A day on which the Frankfurt Stock Exchange is open.
Cryptocurrency Entitlement per unit of security	Sum of Single Cryptocurrency Entitlements, reduced over time by a fee of 1.49% p.a.	Mandatory Redemption	The Issuer is entitled to Mandatory Redemption if certain events occur, as stated in the product conditions.
Rights of bondholders	DA20 holders may sell the product on the secondary market at any time or. Alternatively, they may return the product against Cryptocurrency Settlement or EUR Settlement (the exact redemption amount is determined in the product conditions).		

Intended retail investor

The product is intended for private investors who:

- are able to bear a total loss of the amount invested;
- are seeking a speculative investment opportunity that is accompanied by the expectation that the underlying will gain sufficient value over time to exceed any fees;
- have only limited technical capabilities or lack the relevant technical expertise and therefore, instead of investing directly in the cryptocurrencies comprising the Basket with the aid of bearer bonds with a value based on the price of the Basket, the composition of which is based on the respective current components of the Index, would like to invest in the cryptocurrencies comprising the Basket without having to hold such cryptocurrencies themselves during the lifetime of the product;
- recognise that the value of the product can change frequently due to the extremely volatile underlying and, as a result, have sufficient time to actively monitor and manage the investment;
- have advanced knowledge and/or experience with comparable financial products and understand the cost structure of the product, including the Cryptocurrency Entitlement that decreases daily.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	EUR 209	EUR 58,320
Annual cost impact*	2.1%	3.9%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you redeem at the recommended holding period your average return per year is projected to be 136.7% before costs and 132.8% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are already included in the price you pay *	EUR 23
Exit costs	These costs are already included in the price you receive **	EUR 31
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.49% of the value of your investment per year.	EUR 155

On the date of updating this key information document, the Issuer had not charged any one-off costs.

* Secondary-market investors trade directly with a participating broker or via a stock exchange and pay the fees charged by their broker. The trading margins are publicly available on the stock exchanges on which the product is listed, or can be requested from brokers. You can find out the actual costs from your broker, financial adviser or sales company. The costs displayed above are estimates of such costs.

** Does not apply to secondary-market investors. If an investor decides to terminate the product instead of selling it on the stock exchange or on the OTC market, they may have to pay a upfront redemption fee of EUR 50 (waived by the issuer in certain situations) plus an exercise fee of 1%. Secondary-market investors trade directly with a participating broker or via a stock exchange and pay the fees charged by their broker. The trading margins are publicly available on the stock exchanges on which the product is listed, or can be requested from brokers. You can find out the actual costs from your broker, financial adviser or sales company.

How long should I hold it and can I take my money out early?

The recommended holding period of the product is 5 years

However, since the price development of the cryptocurrencies comprising the Basket is very volatile, investors should constantly monitor the value of the product, as sudden changes in value can occur frequently and abruptly.

Investors can sell the product on the regulated market on which it is listed. You can alternatively sell the product over the counter by submitting a redemption application to an Authorised Participant or directly to the Issuer and surrendering the product to them. You must instruct your custodian bank responsible for executing the order for the specified product accordingly. After execution, you will receive the repayment amount according to the Cryptocurrency Entitlement less 1.49% p.a. administration fee, less repayment fees (calculated from the date of issue of DA20) as described above under "What type of product is it?".

Stock exchange listing	Frankfurt Stock Exchange – regulated market (XETRA); and from time to time additional stock exchanges	Last trading day on the stock exchange	One exchange trading day before the early redemption date, if the Issuer redeems the investment
Smallest tradable unit	1 unit of product	Listing	Listing per unit

In exceptional market situations or in the event of technical problems, it may be temporarily difficult or impossible to buy or sell the product.

How can I complain?

Complaints about the person/entity who/that advised you or sold the product to you may be lodged directly with the relevant person. Complaints regarding the product or behaviour of the Issuer of this product may be posted in writing to ETC Issuance GmbH, Thurn- und Taxis-Platz 6, 60313 Frankfurt am Main, Germany, or emailed to complaints@etc-group.com. Complaints should include the name of the product, the ISIN and the reason for the complaint.

Other relevant information

Updated and additional documents relating to the product, particularly the prospectus and any supplements, are published on the <https://etc-group.com> website in accordance with the relevant statutory provisions. We recommend that you read these documents for more information, especially about the structure of the product and the risks associated with investing in the product.
